## Summary

I am a Software Development Fellow with internship experience at Innovation Growth Hub, also with fundamental knowledge of software design, development, and testing. I am seeking to utilize broad educational background with excellent analytical, technical, and programming skills to thrive as an entry-level Software Developer. Also Through completion of the Google IT Support Certificate, I developed skills in customer service, networking, system administration, operating system(Windows& Linux), and security. My training includes hands-on practice in this area. I am Passionate about continuously learning in the IT field and supporting clients to solve their technical issues.

I can help you excellently in the following areas;

- writing and implementing efficient code
- web development
- RESTFUL APIs
- CI/CD
- backend engineering.
- Web Design
- provide virtual assistance
- administrative support
- customer service
- diagnose and resolve technical issues remotely.
- networking and SRE/devops engineering.

Open to new ideas. Looking forward to working with you...

## Experience

### Freelance Software Developer

Upwork

Apr 2021 - Present (2 months +)

### Volunteer

Bantu Blockchain Foundation

2021 - Present (5 months +)

### Barter Ambassador

Flutterwave

Jan 2021 - Present (5 months +)

### Fellow - Back End Developer

Innovation Growth Hub

Jun 2020 - Present (1 year +)
